Our little game studio was created and funded to bring a small amount of money to our creators’ pockets. After a while we realized that our goals for the game were very ambitious, and rather than work on a small project for a few months, we decided to take a giant leap of faith, and start a new project from scratch. We wanted to make sure that if it didn’t work out, we wouldn’t lose too much money. We came up with the idea of Team Meat, which is our new gaming studio’s name. The development team will consist of people who have been brought together for this project to work on the game for a new, original IP. Team Meat is currently working on Super Meat Boy Forever. It has been released for 20th anniversary of the classic game, and it’s free to play, though it does have a certain campaign mode. Team Meat has confirmed that it’s working on a new project. Team Meat is a separate gaming studio that was founded by former Team Ico members. There is no update on what this new project is yet, but Team Meat did offer a little

more information on Super Meat Boy Forever. “The game we’re working on is called Super Meat Boy Forever. It is an action platformer that mixes the fantastic with the absurd. The story of this game is about a young chef named Meat Boy who was sent to an alternate universe to stop a mad scientist from being able to create a machine that would allow him to cook the stars. As you might expect, Meat Boy gets into more and more trouble as the game progresses, forcing him to go through challenges to save the universe. This is the first game we have developed in our new gaming studio, and we’re proud of it. We hope you’ll enjoy it as much as we have enjoyed developing it.” Super Meat Boy Forever releases in 2021. It will be available on Steam, Playstation 4, and Xbox One. Super Meat Boy Forever [Official Site]A Robust Genome 82157476af
